Date: December 2, 2016
Site Visit: Site Visit, Rasmussen's Dump, Brighton, Michigan
From: Howard Caine, RPM *HC*
To: File

Introduction and Purpose

The United States Environmental Protection Agency (U.S. EPA) Region 5 conducted a Site Visit at the Rasmussen's Dump site on November 4, 2016.

Participants

Howard Caine, U.S. EPA

Jeff "Bart" Bartholomy, GHD

Steve Rapai, GHD

Inspection

The site was toured. The new groundwater wells were observed as well. We discussed the equipment used to remediate the site. The PRPs are considering replacing the 18 year old air compressor. The media in the oxygen concentrator was replaced 6-10 years ago. The ozone generator is approximately 3-5 years old and the old one was also refurbished and is a back-up. The receiver tank for the pure oxygen and air dryer were also observed on-site.
